

The Web-Based COMPTEL Bibliography

Helmut Steinle (MPE)

More than 600 publications which refer to the COMPTEL instrument on-board the Compton Gamma Ray Observatory (launched in April 1991) or to results obtained by it have been published since 1982.

A complete bibliography has been established on WWW accessible pages and is kept up-to-date at the Max-Planck-Institut für extraterrestrische Physik, the site of the COMPTEL principal investigator. All publications are accessible using the WWW.

The contents and sample pages are presented in the poster as well as all necessary information to access the pages.
