

EVP Processing Status

- **Going very smoothly at present.**
- **Reports are accessible from the COMPASS User's Page:**
http://wwwgro.unh.edu/comptel/compass/compass_users.html
- **As of May 2, the latest day processed at MPE was April 23 (TJD11657, VP 917.5). All phase 9 data are complete through this date.**
- **Phase 8 processing is complete.**

OPEN ISSUE

What are plans for QF134 processing of complete mission (phases 1-6, although phase 6 is largely complete)?

Review of EVP Processing

- **QF 131 : Includes ToF-II and PSD-I corrections. These data generated by EVPRNO (copy of EVPRNN v13).**
- **QF 134 : Includes ToF-VI and PSD-II corrections. These data generated by EVPRNN (v14/15).**
- **Current processing of new data :**
 - **EVPRNN generates QF 134 data (γ -1 and γ -2).**
 - **EVPRNO generates QF 131 data (γ -1 only).**
- **Net result will be :**
 - **Complete set of QF131 data for γ -1**
 - **QF134 data for γ -1, starting with phase 7 (mostly complete for phase 6)**
 - **QF 131 data for γ -2, phase 1-6**
 - **QF 134 data for γ -2, starting with phase 7 (mostly complete for phase 6)**
- **Still need correction factors for TOF-VI (QF 134)**
- **Some past discussions about still further ToF improvements.**
